

Where am I and Who Stood Here Before Me? Designing a Local History Project for Elementary Students

One Salary Point

Elementary teachers will learn strategies to engage their students in the study of their local neighborhood and school's history. Historical inquiry techniques, research opportunities, as well as hands on experiences incorporating the LAUSD archives will be provided. This would be a useful seminar for third grade teachers and for those schools that will be celebrating their anniversary soon or wish to design a School Pride Day.
